

# Alexander Kozmanishvili

Senior Product Designer

Lyon, France • +33 7 44 41 77 76 • kozmanishvili@gmail.com • sk01.world

## Professional Summary

7+ years designing member-facing health and insurance products from 0 to scale, focused on prevention-first experiences that support daily health. Strong in design systems, product trios and mentoring designers. Clear storyteller who drives design thinking across teams using HCD research and AI-enabled workflows to deliver measurable product impact.

## Professional Experience

---

**Lead Product Designer** • Symmetra Digital, Tbilisi

Feb 2020–Jul 2023

- Designed consumer health insurance for 100K+ members, policyholder portals (web + native mobile), claims flows, preventive care tracking. Embedded in product trios from discovery through delivery. Results: +22% activation, –40% support tickets, 50% fewer errors
- Scaled design system across 4 products, WCAG 2.1 component libraries, interaction specs, documentation. Mentored 3 designers: weekly critiques, career coaching. Enabled team to maintain consistency autonomously
- Evangelized design maturity: introduced JTBD framework, led stakeholder workshops, published internal guidelines. Transformed org to outcome-driven development

**Senior Product Designer** • Heca Unipersonale (Remote)

Nov 2023–Present

- Led 0-to-1 member health platform, owned vision from white-canvas to beta launch (40+ pilots). Mobile-first interfaces for appointments, health records, preventive care. HCD research to validate early. Integrated Claude API for intelligent triage (–35% routing)
- Built design system from scratch, components, patterns, accessibility guidelines. Mentored 2 junior designers. Presented quarterly vision reviews, evangelized design documentation. Cut handoff time 50%, bugs 60%

**Product Designer** • FollowFox, Tbilisi

Apr 2017–Jan 2020

- Designed patient-facing health journeys (mobile + web)—appointment scheduling, symptom tracking, health records. Contextual inquiry with patients and staff to map information architecture. Lean UX: rapid prototyping, MVP validation

**Web & Brand Designer** • McCann Erickson, Tbilisi • Jul 2015–Apr 2017

- Web design and art direction for healthcare (Evex Hospital), retail, banking—balanced brand identity with usability

## Skills & Tools

---

**Product Design:** Member-facing health & insurance products • Mobile-first (iOS, Android, responsive web) • 0-to-1 development • Design systems • HCD research • WCAG 2.1

**Collaboration & Leadership:** Product trios (PM/Designer/Engineer) • Mentoring junior designers • Design evangelization • Storytelling (written, visual, verbal) • Stakeholder workshops

**Tools:** Figma (advanced prototyping, variants, auto-layout, design systems) • Framer • HTML/CSS/JS • Claude API • Midjourney • AI workflows

**Languages:** English (fluent) • French (intermediate, B1-B2) • Georgian (native)

## Education & Certifications

---

**Bachelor, Visual Communications & HCI** • Tbilisi State Academy of Art, 2011

*French ENIC-NARIC Recognition: Level 6 (equivalent to French Bachelor's degree, EQF Level 6)*

**Certifications:** IDF — Methods to Design Better Products & Services (2024), Mobile Interface Design (2023)
